

# Centrepont

[Back to results](#)

Centrepont's vision is to end youth homeless, and our mission is to everyday give young people a future. We work with 1300 young people annually across London and the North East and provide support and accommodation to 750 young people each night. Through our charitable fundraising we are also able to offer in-house Learning, Health and Volunteering teams who provide additional support to Centrepont young people through work placements, access to education and peer mentoring.
